

Antipodes CX Music Server

X-Series Modular Solutions

CX Music Server

The CX is a breakthrough product providing high computing power without compromising sound quality.

High computer clock speeds interfere with digital audio signals and this causes harsh sound, even when using a separate renderer.

But this problem is solved in the Antipodes CX, due to Antipodes expertise in computer chip tuning, and using a full desktop i5, with four real cores, running at a low clock speed. In fact the CX is Antipodes best sounding single box server, and provides sufficient power to easily navigate a very large Roon library, and to transcode your redbook files on-the-fly up to DSD512.

Application Suite

Easy Point & Click Setup & Remote Control

Three Complete Playback Solutions

Three Renderer Applications

A Range Of Server Applications

We adopt an open systems approach to the applications installed on Antipodes Music Servers. This allows us to bring you the world's best file playback and streaming applications, as they emerge.

User Installable Storage

The CX can take up to two 2.5" 7mm SATA Drives, whether HDD or SSD, but SSD is highly recommended for superior sound. Installable by the owner or by the dealer.

Owners can purchase their storage and slide the drives in the rear slots, and then contact Antipodes Support to optimise the storage in a remote support session.

Upgrade Options

CX Standalone

CX & P1
- Isolation
- Auto-Ripper

CX & P2
- Isolation
- Re-Clocked Outputs

CX, P1 & P2
- Isolation

- Re-Clocked Outputs

CX+EX Extended Solution

Specifications

Antipodes CX

Colour: Silver or Black

Storage Options:

User-Installable: Up to two 2.5" 7mm
Sata HDDs or SSDs

HARDWARE FEATURES

High Power V4H Circuit
Fanless All Alloy
Screened Chambers Construction
ODAPS2 Level 3 Internal Linear Power Supply
USB Audio 2.0 Output
PCM to 32bit / 768kHz PCM
DoP to DSD512, Native DSD to DSD512
Ethernet Direct Output

POWER

110-120VAC or 220-240VAC User-Switchable

DIMENSIONS & WEIGHT

240mm (w) x 290mm (d) x 90mm (h)
9.5in (w) x 11.4in (d) x 3.6in (h)
7.5kg or 16.5lbs

SOFTWARE FEATURES

Music Playback Options:

Room
SqueezeBox
MPD
DLNA/UPnP/OpenHome
HQPlayer
Spotify Connect
SONOS Integration
Plex Media Server

Admin Applications

Find My Antipodes
CD-Import Auto-Ripper
Playback App Switcher
External Drive Mounter
Browser-Based Setup GUI
SMB Server For File Management
& Downloads

WARRANTY

24 Months Return To Vendor Extendable
To 36 Months By Online Registration
